

OUR PERFORMANCE  
YOUR SUCCESS

## Saudi Networkers Services' Values, Vision & Mission

Our values are based on honest and direct approach that stems from our Organizational Strategy, Professionalism & Business Ethics and Quality of work which not only is innovative but also provides the flexible solutions.

We are committed to proactively meeting customer expectations with focus on customer's success; this is through continual improvement on our business environment with safe working conditions both within and outside the Kingdom of Saudi Arabia.

## What Saudi Networkers Services' Do and Why we stand apart from our competitors

Knowing that a resourcing function needs to be evolved, we use the Best Practice Framework as a tool to build a solution for you, to your specifications and objectives.

We deliver an Intelligent Resourcing Solution through a combination of market insight, technical excellence and unrivaled methodology, that transforms your business.

We've been delivering outsourced recruitment across multiple sectors for more than a decade. Every year we deliver a great candidate experience to thousands of candidates, and hire hundreds across MEA region, as we work with our clients to constantly develop better, more innovative and cost effective solutions.

We use knowledge and market leading insight to identify, connect and engage with the right people, through our global networks and our unique social media collaboration.

Our simple, yet powerful RPO solutions will help give your business the competitive edge and bring your brand to life through every candidate interaction.

From modular, co-source and in-source to outsource total talent or any combination of solutions, our Intelligent Resourcing programme supports the design of a solution that is carefully tailored to meet your immediate needs within a framework that evolves by design to reflect your needs as they change over the time.

From localized services to regional agreements, our experience combined with the infrastructure, market knowledge and expertise as a region's largest specialist Consultancy, we are uniquely positioned to support you whatever the scope and location is.

Our centres of excellence in Middle East & North Africa region, provide us with a scalable infrastructure which can support multiple locations and languages.

Through continued investment in technology, our use of world class CRM, state of the art social media collaboration, we are constantly upgrading our talent attraction, engagement and management capability on both a macro and micro level.

With us on board, you will benefit from first-class recruitment solutions, sector innovation, technical excellence and reliability of delivery every time.

## Our Services

We provide an Intelligent Resourcing and a range of outsourcing solutions, that ranges from full Recruitment Process Outsourcing to a Managed Service Provision, Technology Solutions to Modular Services such as sourcing, response handling or assessment & selection and Executive Search.

Our inventive approach and ability to evolve ensures that we can source the best available talent for your organization, as and when you need it most. Intelligent Resourcing allows us to deliver results, whether it's saving time and money, widening your talent pool, safeguarding against risks or improving compliance.

Having SNS as your sourcing partner, our Resource Consultancy Team will be engaged to deliver your resource plan, so that you will be able to focus more on your internal business objectives.

Whether you are in need of a single consultant in a specific area of network or would like to outsource a whole recruitment campaign, Saudi Networkers is a smart choice with proven experience in delivering a high volume of professional consultants through our pool of in-house and freelance talent to meet your requests. We take the pride that we can deliver in a fast, appropriate and in very professional manners whilst taking budgetary constraints in to the consideration and practicing high ethical standards.

Saudi Networkers has an excellent reputation for its quality of service delivery, reliability and a proven ability to source engineers for projects on a global reach in Telecommunication, Technology, Oil & Energy, Healthcare, Banking & Finance and Engineering arena.

Today SNS has 1500+ employees in MENA region, ISO 9001:2008 certified and is highly regarded.
